

# MIC500USB

## Audiophile Vacuum Tube Preamplifier with Preamp Modeling Technology and USB/Audio Interface

### Product Features

High-end pre-amplification for all microphone, instrument and line-level sources. Specifically designed for studio-grade condenser mics

Perfectly matches your studio, live and hard disk recording set-up

Ultra-flexible Preamp Modeling allows you to optimize your recordings

Choose between 16 preamp voicings designed for electric and acoustic guitars, keyboards, bass guitars, drums, vocals and more

Built-in USB/Audio Interface to connect directly to your computer.

Powerful Phones output with Level control and Direct Monitor select

Hand-selected 12AX7 vacuum tube with UTC technology for exceptional warmth and lowest noise

Ensures outstanding signal transparency when used as a high-end DI-box

Sophisticated output limiter prevents the output signal from clipping

Dedicated low cut filter eliminates unwanted noise, e.g. floor rumble

+48 V phantom power, Phase Reverse switch and 20 dB Pad for utmost flexibility
