P2

Ultra-Compact Personal In-Ear Monitor Amplifier

- In-ear monitor amplifier for personal monitor applications
- Ultra-compact and lightweight design
- High power and “drummer proof” headphones output
- XLR and TRS input connector with locking mechanism
- Level control with power on/off switch
- Stereo/mono source switch (internal)
- Runs up to 12 hours on 2 AAA batteries (not included)
- Battery control with LED indicators
- Integrated current limit protects your ears and headphone
- Convenient belt-pack clip included
- “Built-like-a-tank”, impact-resistant metal chassis
- Designed and engineered in Germany

Whether you're a keyboardist, drummer, or other musician whose performance keeps them anchored in one spot, the P2 Ultra-Compact Personal In-Ear Monitor Amplifier was designed specifically for you. A convenient hard-wired personal in-ear monitor control center, the P2's belt pack puts monitor control right at your fingertips, plus it's powerful, lightweight and ultra-easy to use.

3.5 mm Phones Jack

You can use your favorite headphones, earbuds or custom-molded professional In-Ear Monitors (IEMs) with the P2, thanks to the top-mounted, standard 3.5 mm (1/8") stereo output jack.

Locking XLR / TRS Input

Because your monitor is crucial to your performance, P2's XLR / TRS combo input connector features a locking mechanism to prevent accidental mic cable disconnects. Just press the tab next to the bottom-mounted connector to release the cable at the end of the gig. It is important to note that P2's XLR input accepts balanced line signals taken directly from your mixer, allowing you to control the volume of the onboard amplifier.

**Mono
or
Stereo**

Dual Mode Operation

P2's internal Mono/Stereo switch lets you choose the mode that best fits your needs. When using your mixer's aux send or any other mono source, move the switch to the Mono position. For connecting to a headphone output or other stereo source, simply set the switch to Stereo and use an XLR-to-TRS or TRS-to-TRS (male to male) cable.

Volume Control

The P2 features an extremely high-quality level control with on/off switch for dialing in the perfect level every time. Designed for long life and super-smooth performance, this detented control stays where you put it.

Handy Belt Clip

When you do need to move around, say to change your amp or stomp settings, P2's built-in belt clip will always keep it close at hand. Just slip the P2 onto your waistband or belt and let the good times roll!

Sound Value

When it comes to wired monitor applications, you simply will not find a better or more affordable solution than the amazing P2 Ultra-Compact Personal In-Ear Monitor Amplifier. Built-like-a-tank to be "drummer proof", and featuring an impact-resistant metal chassis, the P2 was made for the road and will give you many years of dependable, highest-quality performance.
