Condenser Boundary Microphone for Instrument Applications

Product Features

- Condenser boundary microphone for acoustic instruments
- Frequency response for kick drums, piano and bass-heavy instruments
- Integrated preamplifier for outstanding signal integrity
- Half-cardioid polar pattern minimizes background noise and feedback
- Switchable filters for stronger lows and high-frequency attack
- Extremely high signal output which lets the sound cut through
- Requires no external mounting
- Impact-resistant carrying case included
- Rugged, reliable metal construction
