

DI800

Professional Mains/Phantom Powered 8-Channel DI Box Product Features

Professional and multi-purpose 8-channel direct injection box for stage and studio applications

Provides impedance and signal matching for the direct connection of instruments to mixers and amplifiers

Ultra-flat frequency response due to servo-balanced operation

Optional mains or phantom-powered operation

Allows direct connection to speaker outputs with up to 3,000 Watts

+20 dB gain switch for pre-amplification of low-level signals

Switchable input attenuation allows input levels of up to +40 dB

Ground Lift switch eliminates typical ground loop problems

Link output for easy connection to further equipment

1/4" TRS and gold-plated XLR connectors

Illuminated switches enable perfect operation in dark stage environments
