QP-16

Line-array Column Speaker

(wall-mounted installation)

16 speaker drive mounted in a line and fed in phase.

Reducing the reverberation and echo that Traditional Speaker would made. Enhance STIPA by improving Speech Intelligibility.

HKKKWA Sun Fong Chung Primary School | Hall

work with **DSP Subwoofer SWP-12**
& **Digital Mixing Console X32 Producer**

SWP-12

DSP active Subwoofer with Amplifier

(wall-mounted installation)

12" Active subwoofer with DSP control for Column speaker or mount with 2nd subwoofer.

Strong sandy painting for protection.
Front view vent port to get stiff bass transmitting.
Flexiable installation when chamber design would be changed.
